

THE **PROVEN SOLUTION** TO EMPLOYEE BURNOUT DELIVERED SAFELY AND ECONOMICALLY, WHERE YOU NEED IT!

Rejuvenation Station™

IMMERSIVE NATURE VIDEO SYSTEMS WITH SCORED MUSIC
PROVEN TO RELAX, RESTORE, AND RENEW

THE CHALLENGE

- Pre-COVID burnout in physicians ranged from 42% to 54%. As of 2022, nearly two-thirds of physicians (65%) report experiencing burnout. More than one in three physicians (35%) reported a significant burnout increase in 2022.
- PTSD spikes in our healthcare workers tend to follow national crises and soared due to stress and lack of resources during the COVID crisis.
- BURNOUT causes more workers to exit the system, increases self-reported medical errors in diagnosis and treatment, and negatively impacts quality of care and patient safety.

\$5
BILLION
annual cost of
physician burnout

\$88-137
BILLION
overall cost of nursing
shortage due to COVID

THE SOLUTION

RejuvenationStation™ and RejuvenationGO!™

Rejuvenation Station™ and **RejuvenationGO!™** provide 3-8 minute immersive sonic and visual rejuvenating experiences for healthcare workers, delivered *where* staff work, in a safe, personal way.

Tested in the **Houston Methodist Hospital Emergency Department**, the **Rejuvenation Station™** programs have been proven to reduce stress in less than five minutes.

Based on the science of biophilia, the programs are created by two Emmy award-winning artists for music and cinematography, **Gary Malkin** and **David Fortney**.

TESTIMONIALS

“You have no idea how the Rejuvenation Station™ **SAVED** my summer.”

— Staff Member, Queens Hospital, New York

“They love it. Departments literally fight over who gets to use it next! It’s a big success.”

— David Weisman, Ph.D., CPXP Chief Experience Officer, NYC Health

“Staff at Lincoln have been raving about the Rejuvenation Go! Station. They rarely have time to leave the units due to working with patients and this had been so beneficial with helping them to address their mental wellbeing.”

— Rhayvan Jackson-Terrell, LCSW Wellness Program Director, NYC Health + Hospital
